FORESEE HARD TREATY FIGHT

Administration Forces Preparing for Attack By Bryan and Walsh.

By J. BART CAMPBELL, International News Service.

BAN FRANCISCO, June 27 .- The wires between Democratic Chairman Homer S. Cummings' headquarters and the White House buzzed today as the Administration forces prepared to et the hard, bitter fight William Jennings Bryan, supported by several Democratic Senators, is expected to wage against the adoption by the Democratic convention of the Wilson cague of National plank.

Bryan was busily engaged at an early hour conferring with Democratc leaders like Senators David I Walsh, of Massachusetts; James A. Reed. of Missouri, and Robert I Owen, of Oklahoma.

"If Cummings thinks our fight prevent the President's proposal to have the league make the chief issue of the campaign is going to be a flareup in the resolutions committee which he can easily smother, he is going to be badly mistaken," Walsh said.

Cummings is bending every effort to prevent the oratorical explosion which Bryan and Walsh are threatenng to cause in the crowded convenon auditorium. The Administration wheel horse" desires to keep the treaty battle confined to the resolutions committee, for he knows that verbal attacks by Bryan and Walsh on the Administration league policy publicans as demonstrating a split in the Democratic party.

Cummings is working to prevent an appearance of a split. He wants to avert an open fight, to keep whatever ruction is raised by Bryan and Walsh and other anti-Administration men behind the closed doors of the room in which the resolutions committee will meet.

SAN FRANCISCO, June 27 .- Bands playing, motors honking, policemen's whistles shrilly expostulating, flat street car wheels, banging guns on the fleet now and then mysteriously and sonorously saluting, boy scouts marching, dark horses champing, "Cox's army" parading, delegates sightseeing, sun shining, flags flying. WOMEN ARE FEATURES.

The outstanding feature of the whole thing is the women. They give color to this convention that never was seen before. There are 400 of us officially with the convention-96 delegates, 202 alternates, 50 State committee women who are members of the national committee, 17 members of the executive committee of the national committee, and the rest personnel of various committees.

Of course, so large a feminine representation means that there are women on every committee; nothing is decided and no moves are made without their participation. Yesterday, at the executive session of the National Committee, women sat silent and eager when Senator Reed, one of the greatest foes of equal suffrage, lost his ples to be seated in the national convention.

It was a triumphal moment for

some of the women present, who had, again and again, fruitlessly interviewed him in his office at Washingtion by the Republicans in Chicago ton in the interest of woman suffrage. RECOGNITION GIVEN.

SAN FRANCISCO, June 27 .- Platform makers for the Democratic conpon practically all of the important real fights in the convention and in or lose first place with him. the platform are to come on these two issues.

Senator Carter Glass of Virginia, the President's spokesman, who has been working patiently to reconcile all the contending factions and bring about an agreement upon the platform issues, struck his first enag yesterday. This was due to the arrival of Postmaster General Burleson, who has very distinct views as to what the party declaration should be on some of the things Glass is doing. GLASS GETS PEEVED. Attorney General Palmer, another

of the President's Cabinet, also offered a number of suggestions to Glass for the platform. Glass became somewhat impatient over the suggestion of Burleson and Palmer for the wording of the platform. Palmer demanded a strong plank

on profiteering, which should declare for the branding of all goods with the date they are placed in cold storage and for the licensing of cold storage plants and strong regulatory measures directed against all foodstuffs in interstate commerce. He gave a draft of the plank to Vance McCormick to be given to Glass for incorporation in the platform.

Burleson made a demand for a plain and simple declaration on the League of Nations question, one which the common ordinary voter could under stand, and for planks on the high cost of living, opposition to the soldier bonus, declaring strikes unlawful and a straightforward declaration

The Palmer delegates from Georgia have been seated. The anti-Administration Smith delegation has been turned out, and Senator Reed, anti-Aministration leader from Missouri, has been denied seat as expected.

BRYAN WILL BATTLE.

The first fight after the convention gets under way probably will occur in the credential committee, where Reed 'will appeal the decision of the national committee. It is likely this committee will refuse him a place, and he will, therefore, be barred from the floor.

With Bryan on the resolution committee, a battle is expected from the moment the doors close on the deliberations of that body. Bryan has declared he will work for a dry plank, for a profiteering plank, a plank pro viding for investigation and full publicity in labor disputes, and opposition to making the League of Nations the paramount issue.

There are a number of wets in the committee who are eager for a showdown.

Unless Bryan can sway the committee by oratory, it looks as if the league plank approved by Wilson ould be adopted, as the Administration leaders are confident they have

SHIP APPEAL **HEARD IN FALL**

Court Record Giving Permanent Injunction Against Sale Transferred.

Transference of the record in the now famous case whereby William Randolph Hearst, suing as a taxpayer, secured a permanent injunc-tion against the sale by the Shipping Board of the fleet of twenty-nine former German liners, was made yes terday by District Attorney James B Archer, for the Shipping Board.

The injunction was granted Mr. Hearst by Justice Jennings Bailey, of the District Supreme Court, two months ago. At that time an appeal to the District Court of Appeals was noted by admiralty counsel. The transference of the record in the case was the necessary formality required by court procedure.

In his petition to the Court of Appeals, District Attorney Archer claim ed Mr. Hearst's suit as taxpayer, favorably decided by the District Supreme Court, would constitute a "dangerous precedent" in that it would "tie up the activities of a Govrnmental agency."

COMES UP IN OCTOBER.

The appeal cannot be heard until next fall, when it will be carried on the October calendar of the Court of All the contentions made by ad-

miralty counsel contained in the petition yesterday are merely repetitions of those made by the counsel for the Shipping Board during the hearing of the case before Justice Bailey. All of these points were set aside by the court in favor of Mr. Hearst.

District Attorney Archer sets forth in his petition that the lower court did not have jurisdiction in the case, which is merely a formal repetition of a previous statemeent to that effect, which also has been decided Archer said today that the "Governpetition was merely the usual formal presentation of the case to the Court of Appeals.

AUTHORIZED TO SELL FLEET. No mention is made in his brief of the Jones' shipping act, which was jammed through Congress on the last days before adjournment, and which specifically authorizes the Shipping Board to sell the former German fleet. Company, and he Shipping Board has advertised for bids on two more of the fleet-the Leviathan and the De Kalb.

Bids on the Leviathan, the largest hip affoat, will be opened next Wednesday. She is now in the hands of the International Mercantile Marine under the terms of an upkeep contract by which that company is paid \$15,000 a month while she lies in port.
